## Surgical Instrument Decontamination Work Sinks

**There is no charge for customizing TBJ-SPD product.**

Over 30 years of experience manufacturing custom and standardized products including: surgical closed case carts, washer decontaminators, ventilated workstations, decontamination work sinks, ergonomically designed workstations prep and pack work tables, high density shelving, and automated supply conveyors. The [cost/price difference for "custom" products](#) is determined by the cost of materials. Options include: mobile, hydraulic manual or electric, access cutout, fume exhaust, retractable shelving.

**It is more cost effective to get exactly what you need.**

**Ergonomically Designed Workstations**

**TBJ-SPD does it your way.**
